## Childcare in the holidays

There are a range of options for working families looking for childcare during the school holidays. Many families get help from grandparents and other relatives, while others arrange holiday childcare or book children in for activity programmes and holiday playschemes.

You may also want to think about using the services of a local childminder as another childcare option for the holidays. For some advice about choosing a childminder visit: [www.islington.gov.uk/childminders](http://www.islington.gov.uk/childminders)

## Holiday playschemes

Holiday playschemes are an affordable way to cover childcare during holidays. The schemes are for children aged 4 to 11, though most schemes in Islington also cater for older children. The playschemes offer activities such as arts and crafts, sports and outings.

## Non-Islington residents

With significantly reduced resources, Islington Council is subsidising holiday childcare only for Islington residents.

Children not meeting these criteria may still be able to access the holiday childcare but they are likely to be charged at an unsubsidised rate, unless the setting is able to subsidise places through other means, using the rest of their budget or through fund-raising.

Non-resident staff working at these childcare settings may be offered places subsidised by the council, but resident children will be prioritised.

Please contact the childcare provider to find out more about charges at their setting.

There is a range of support to families with the costs of childcare – please contact [Islington FIS](#) for more information.

## Sports camps

There are a number of sports camps running during holidays including football, tennis, swimming and multi-sports sessions. These do not offer full day activities but provide an opportunity for children and young people to keep active during the holidays. For details, visit the GLL website at: <http://www.better.org.uk/areas/islington> and Access to Sports: <http://www.accesstosports.org.uk/>

## Adventure playgrounds in Islington: safe, fun, welcoming and free!

Adventure playgrounds are **safe**. In Islington, they are all registered with Ofsted. Children sign in when they arrive so that staff members know who is on the playground at all times. Senior workers at each playground hold a Level 3 qualification or higher. All staff members are police checked, receive regular safeguarding training and follow Health and Safety guideline requirements. There are fully trained first aiders on site whenever the adventure playground is open and any staff or volunteers working with food have a valid Food Hygiene Certificate. Staff members at the adventure playground understand that each child is an individual. Some children may not be ready to come along to the adventure playground or walk home without an adult. Each child's circumstances are discussed between parents and the staff members at the time of registration so there is an agreement and understanding about your child's stage of development and independence.

Adventure playgrounds are **fun** – children attend adventure playgrounds in high numbers because they enjoy spending time there – nearly 4,000 children attend the 12 adventure playgrounds each year. At Adventure Playgrounds playworkers support children to follow their own interests and through doing so ensure children can determine their own playful adventures. There are always exciting and interesting things for children to get involved with, regardless of the weather or the time of year, with everything from sports, cooking, crafts and nature play on offer year round. Children can also spend quiet time with their friends and on their own – playgrounds have books to read, gardens to tend and space for activities away from noise and activity.

Adventure playgrounds are **welcoming** – Islington is a diverse borough and the adventure playgrounds reflect this! Children across a range of ages from 6 and up attend, there is an even balance of boys and girls, you will hear children speaking a range of languages and the adventure playgrounds support many disabled children and children with special educational needs. Bullying on adventure playgrounds is never tolerated and staff members work together with children, families and other professionals to make sure that any incidents are dealt with appropriately.

Adventure playgrounds are **free** – once your child is registered at the playground, they can attend whenever the playground is open. There will be some occasions where charges apply, for example when there is a trip off site or if there is a special event taking place at the adventure playground.

All of the services outlined in this leaflet aim to be inclusive and open to disabled children and young people wherever possible. Service providers have a duty to make reasonable adjustments and not to treat a disabled person less favourably. Islington has provided funding, training and advice to many providers of childcare, play and youth and leisure services to help ensure that the needs of disabled children are met.

However, not all services will be suitable for everyone. The facilities available and the levels of staff experience and training will vary from place to place. It is advisable to contact the provider to discuss your needs and what they can offer.

For full details of the help available in the Islington area for children and young people aged 0-25 with special educational needs and disabilities, visit the [Local Offer](#) pages on Islington's website.

## **Islington Shorts Breaks for disabled children and young people**

The term 'short breaks' describes a range of services that:

- Enable disabled children and young people to take part in enjoyable activities that will have a positive effect on their health and wellbeing.
- Support the families of disabled children by giving them a break from their caring responsibilities.

Islington has a duty to provide access to short break services for all disabled children and young people aged 0-18 who live in the borough.

There are different levels of short break to meet the different needs of disabled children, young people and their families.

Universal services are suitable for disabled children with lower level needs.

Targeted services are aimed at disabled children assessed as having severe and complex needs that cannot be met through universal services alone.

Specialist services are for disabled children and families assessed as having the highest level of needs.

Further details are set out in the [Short Breaks](#) statement on the Islington website.

Access to targeted and specialist short breaks services is by assessment. You can find out if you are already on the list of eligible families by contacting the Short Breaks team.
