

A story about the coronavirus

I go to school on

Monday, Tuesday, Wednesday, Thursday

and Friday. Sometimes the routines

change and

I do not go

to school. This is because there are

school holidays or there is a

special reason why the

school has to close.

My school has to close on ..... because of the

coronavirus.

   
This means I will stay at home.

    
This is different and is a change in my routine but that is

     
ok. This is to stop the virus spreading.

      
At home, I can play, write and draw. I can do

    
all of the usual things I normally do at home. My teacher

       
will give me homework packs, my adult at home will

      
tell me when is a good time to do this.

     
My adults and teachers will be pleased I have stayed at

  
home.

          
The school will let my adults know when it is open

again.

            
I will see my friends and teachers once I am back

  
at school.
